github.com/ovaiskhanday
linkedin.com/in/ovaiskhanday

A highly motivated Computer Science graduate with a passion for software development. Eager to apply my skills and contribute to a team, while continuously learning and expanding my knowledge in the field.

SKILLS

Languages	HTML/CSS, JavaScript, Typescript, Java, SQL, Python, C/C++
Frameworks & Libraries:	React, Next.js, Node.js, Tailwind CSS, Shadcn, Redux Toolkit
Tools & Platforms:	Git, GitHub, VsCode, Andriod Studio, Vercel, Firebase, Figma, Postman, AWS

TECHNICAL EXPERIENCE

Coding Mentor <i>CodeYoung</i>	July 2024 — Present <i>Bangalore, India</i>
• Mentored 20+ international students in web development and Python, helping them build key skills and projects.	
Fullstack Web developer trainee <i>AlmaBetter</i>	Feb 2024 — Dec 2024 <i>Bangalore, India</i>
• Learn the intricacies of Web Development	

PROJECTS

CaseCobra: an e-commerce for custom phone back covers

- Developed casecobra, a responsive web app enabling customers to upload photos and create **personalized** mobile phone cases.
- Implemented a user-friendly interface for **seamless photo uploads** and case customization across all devices.
- Designed an intuitive **admin dashboard** for efficient order management and customer interaction tracking.
- Utilized **cutting-edge web technologies** to ensure a smooth and responsive user experience.

Quixlar - The ultimate online quiz platform

- Developed Quixlar, the ultimate online quiz platform designed to make quiz creation and participation a breeze.
- Implemented **fluid UI** and an admin dashboard for seamless realtime data overview.
- Create, share, and watch the matrices.

chat8 - A real-time chatting web-app

- Developed Chat8, a **real-time chatting** application ensuring seamless and instant communication.
- Implemented advanced features such as **live message updates** for an enhanced user experience.
- Utilized WebSocket technology to achieve **low-latency** messaging and real-time interaction.
- Designed an intuitive user interface for easy navigation and efficient communication across various devices.

careTracker - fullstack school bus management app

- Developed Flutter app, and backend in Express.js, for the efficient management of school buses.
- Enabled **real-time live location** of buses for the parents to locate the geo-positions of their loved ones.
- Leveraged the user of **Arduino** for the hardware to be installed on each bus.

EDUCATION

Master's In Computer Applications - (Pursuing) <i>University of Kashmir</i>	SEPT. 2024 — SEPT. 2026 <i>Kashmir, India</i>
Bachelor's of Computer Application - (9 CGPA) <i>Govt. Degree College Anantnag</i>	Apr 2020 — Dec 2023 <i>Kashmir, India</i>
Coursework: Data Structures and Algorithms, Operating System, DBMS, Computer Architecture, Computer Networks, Cyber Security, Statistics, AI/ML	

CERTIFICATIONS

- React -The Complete Guide (**Udemy**)
- The Next.js Bootcamp - The Complete Developer Guide (**Udemy**)
- Introduction to Git and GitHub (**Udemy**)
- Mastering Data Structures and Algorithms using C and C++ (**Udemy**)

ACTIVITIES

Team Lead, Final Year Project: Led successful completion of the final year project, showcasing **leadership and project management** skills.

Problem Solving: Solved almost 200+ Problems on Leetcode ([Profile Link](#)) till Now.
