WORK EXPERIENCE

Software Developer

AlmaBetter

01/2024 - present

Delivered innovative solutions and drove project success through proficient coding, robust problem-solving skills, and collaborative teamwork.

PERSONAL PROJECTS

casecobra - A modern fullstack e-commerce shop

<https://casecobra-mu.vercel.app/>

- Developed casecobra, a responsive web app enabling customers to upload photos and create personalized mobile phone cases.
- Implemented a user-friendly interface for seamless photo uploads and case customization across all devices.
- Designed an intuitive admin dashboard for efficient order management and customer interaction tracking.
- Utilized cutting-edge web technologies to ensure a smooth and responsive user experience.

Quixlar - The ultimate online quiz platform

<https://quixlar.vercel.app/>

- Developed Quixlar, the ultimate online quiz platform designed to make quiz creation and participation a breeze.
- Implemented fluid UI and an admin dashboard for seamless realtime data overview.
- Create, share, and watch the matrices.

chat8 - A real-time chatting web-app

<https://chat8-opal.vercel.app/>

- Developed Chat8, a real-time chatting application ensuring seamless and instant communication.
- Implemented advanced features such as live message updates for an enhanced user experience.
- Utilized WebSocket technology to achieve low-latency messaging and real-time interaction.
- Designed an intuitive user interface for easy navigation and efficient communication across various devices.

careTracker - fullstack school bus management app

<https://github.com/OvaisKhanday/careTracker>

- Developed Flutter app, and backend in Express.js, for the efficient management of school buses.
- Enabled real-time live location of buses for the parents to locate the geo-positions of their loved ones.
- Leveraged the user of Arduino for the hardware to be installed on each bus.

SKILLS

Next.js - JavaScript - TypeScript - Node.js - React.js - Flutter - Tailwind - Express.js - MongoDB - Git - MySQL - Bootstrap - CSS3 - Netlify - Vercel - REST API - Linux - C/C++ - Java - HTML5 - Postman

EDUCATION

Bachelor of Computer Applications

University of Kashmir - 9 CGPA

01/2020 - 01/2024

ACHIEVEMENTS

- Achieved a 40% reduction in server response times for Chat8 by optimizing backend performance and implementing WebSocket technology.
chat8

- Saved 80% of the parents' time, which they were wasting waiting for the school bus to arrive to take off or drop down their children, by implementing a GPS based real-time tracking system.
careTracker

- Spearheaded multiple full-stack development projects, consistently delivering high-quality apps
full-stack development

CERTIFICATES

[Trained React.js Developer](#)

Dec 2021, Brain O Vision

[Certified Frontend Developer - React.js](#)
